SWISS WATCHES

*Authentic High Watchmaking  
100% Manufactured in Switzerland.*

*Welcome to our world: the result of  
10 years of passion and dedication.*

# Le Rhône

## Human Tempö

Genuine. Sincere. Transparent. With a human dimension.  
Le Rhône is a dream, a growth project initiated and developed by its two founders, Loïc Florentin and Timo Rajakoski, who nurture the vision of a contemporary, creative and collaborative Haute Horlogerie.

Between technical sophistication and timeless design, forceful lines and supreme comfort, Le Rhône's five major collections shine a spotlight on the artisans, the crafts and the savoir-faire deeply rooted in the great Swiss watchmaking tradition, while encouraging them to keep moving forward in their ongoing pursuit of innovation.

All watches by Le Rhône are not only entirely made in Switzerland within a distance of less than 200km between Porrentruy and Geneva; they are also certified, attesting to their chronometric excellence. The same applies to all components, which are traced by Blockchain technology, on the Respect Code platform.

True to the tradition of bespoke watchmaking that combines the excellence and dedication of great watchmaking professionals, Le Rhône also cultivates a personalized service, making a unique experience available to its customers. Together, they create timepieces made possible by the perfect collaboration of experts at the apex of their art.

In keeping with its "Human Tempö" signature, Le Rhône is celebrating its 10th Anniversary this year with a tribute to the people, their drive and their expertise.

Loïc Florentin

# HEDÖNIA

*Elegance & Refinement*

## Technical Features

Movement: Automatic, Fully Developed & Manufactured in Switzerland - 128 Components - 28'800 Vib/h (4hz) - Power Reserve: approx. 42h.  
Functions: Hours, Minutes, Seconds.  
Case: Diameter 41mm - Titanium Grade 5 - Strap-Change System.  
Water-Resistance: 10 ATM (100 meters/330 feet).

# HEDÖNIA

*Elegance & Refinement*

The Hedönia line, embodying effortless elegance and refinement, is revisited in Grade 5 Titanium. This material offers the perfect balance between solidity, lightness, resistance to corrosion and supreme workmanship. Keeping the signature case of Le Rhône, this 41mm automatic three-hand timepiece is designed with a wider Côtes de Genève dial, enhancing its modernity.

# MOÖN<sup>41mm</sup>

*Celestial Dream*

## Technical Features

Movement: Automatic, Fully Developed & Manufactured in Switzerland - Moonphase Correction by the Crown- 147 Components - 28'800 Vib/h (4hz) - Power Reserve: approx. 42h. Functions: Hours, Minutes - Central Moonphase display. Case: Diameter 41mm - Titanium Grade 5 - Strap-Change System. Water-Resistance: 10 ATM (100 meters / 330 feet).

# MOÖN<sup>41mm</sup>

*Celestial Dream*

In addition to Pink Gold, the Moön collection enters the new generation of Le Rhône Titanium watches. A wider opening dial magnifies the delicate Aventurine or profound Black Cosmic starry sky, where lays a mother-of-pearl or silver-texturized Moon. The Super-LumiNova hands assures perfect readability in the darkest of nights for an enchanting whole look.

*Celestial Dream*

## Technical Features

Movement: Automatic, Fully Developed & Manufactured in Switzerland - Moonphase Correction by the Crown- 147 Components - 28'800 Vib/h (4hz) - Power Reserve: approx. 42h.  
Functions: Hours, Minutes - Central Moonphase display. Case: Diameter 41mm - 18K Pink Gold - Strap-Change System.  
Water-Resistance: 10 ATM (100 meters / 330 feet).

M1PG251-1-A51D

# MOÖN<sub>41mm</sub>

*Celestial Dream*

The moon phase has the particularity to progress on the entire dial's surface and has a precision of 4 years and 275 days. This 41mm Moön combines resolutely sporty characteristics (robustness, water-resistance, legibility, ergonomics) with the classic assets of design, quality, precision and high level of Swiss craftsmanship finishes.

# MOÖN<sup>37mm</sup>

*A Poem of a Sky*

## Technical Features

Movement: Automatic, Fully Developed & Manufactured in Switzerland - Moonphase Correction by the Crown- 147 Components - 28'800 Vib/h (4hz) - Power Reserve: approx. 42h.  
Functions: Hours, Minutes - Central Moonphase Display. Case: Diameter 37mm - Titanium Grade 5 or 18K Pink Gold - Strap-Change System.  
Water-Resistance: 5 ATM (50 meters / 165 feet).

# MOÖN<sup>37mm</sup>

*A Poem of a Sky*

Le Rhône iconic Moön collection adopts for the first time Grade 5 Titanium. Combining a contemporary sport chic style with refined finishes, this moon phase timepiece is redesigned with a reduced case thickness for a flawless harmony.

A nocturnal window on the infinite, the dial is entirely made of aventurine glass, letting the stars shine through. A large aventurine disc is adorned with a circle of natural white mother-of-pearl representing the Moon. The 64 diamonds on the set version enhance and illuminate the brilliance and magic of the whole. The tone-on-tone alligator strap of this 37mm Moön is now interchangeable, in a simple and quick movement.

# Le Rhône celebrates its 10th Anniversary with a significant complication

Horölogy Tourbillon QP Retrograde,  
*the creation of the 'Dream Team' : Le Rhône  
and three Swiss watchmaking Masters*

## Technical Features

Case: Diameter 45mm - Titanium Grade 5 and Platinum 950.  
Water-Resistance: 3 ATM (30 meters / 100 feet).

# COLLABORATION

*Eric Giroud*

## Eric Giroud, Le Cercle des Horlogers and Agenhor

True to the Le Rhône spirit, the quintessence of the values and know-how developed by the brand over 10 years, the Horology "10th Anniversary" was designed by Swiss designer Eric Giroud, whose creations have been acknowledged by numerous prizes. This Limited Edition of 10 pieces comes with a QP Tourbillon Retrograde movement, developed in collaboration with two of the most prestigious Swiss watchmaking ateliers, Le Cercle des Horlogers and Agenhor, who are for the first time joining forces on a horological project.

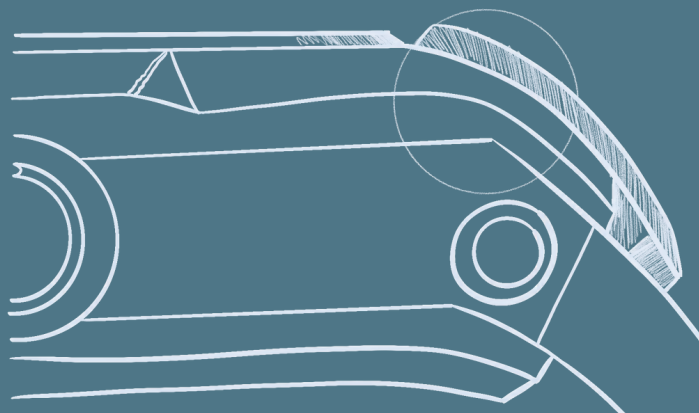

## A remarkable piece

This perpetual calendar tourbillon timepiece made of platinum and titanium stands out by its skillful workmanship. On the two sides, the days of the week and the date are displayed in an arc. At noon, a smaller discreet arc indicates the month of the year as well as leap years, while at 6 o'clock, the flying tourbillon cage rotates in 60 seconds. Easy to read and use, this masterpiece is crafted with Platinum, a noble, precious and eternal metal, and with the light and resistant Titanium metal.

## Less is more

Understatement was the watchword throughout the conception of the timepiece, with its refined design balancing with the imposing 45mm diameter case and the complexity of the movement. Though the bezel is gone, its presence subtly persists and can be inferred from the shape of the dial which now benefits from a larger visual space. Pure and elegant, the dial adopts a smooth midnight blue color with a velvety opaline texture, contrasting with the alternating white and gray silvered decal indications. A tone-on-tone rubber strap reinforces the sport chic character of the watch.

*"The idea was to balance the complexity of the functions by designing a pure and readable dial",* says the virtuoso designer Eric Giroud, seeker of consistency.

# HORÖLOGY

*Double Tourbillon,  
Double Obsession*

## Technical Features

Movement: Hand-Winding, Fully Developed & Manufactured in Switzerland - 385/395/454 Components (depending on the version) - 21'600 Vib/h (3Hz) - Power Reserve: approx. 72h. Functions: Hours, Minutes, «Jumping» Display of 24-Hour Second Time Zone - Double Flying Tourbillon. Case: Diameter 45mm - 18K Pink Gold, Titanium Grade 5 or Stainless Steel 316L with Black DLC Coating (depending on the version) - Water-Resistance: 3 ATM (30 meters / 100 feet).

# HORÖLOGY

## *Double Tourbillon, Double Obsession*

These Haute Horlogerie timepieces, crafted by talented Swiss artisans, translate the ultimate Le Rhône savoir-faire. Designed in a complex way yet produced with ease-of-use in mind, each model encloses two transparent tourbillon cages, revealing the beauty of a pure mechanism.

Three complications have been developed for the fascinating Horölogy line: a Double Bridge Tourbillon Home Time, a Double Flying Tourbillon Home Time and a Double Flying Tourbillon JMT (Jumping Meridian Time), adorned with Le Rhône emblematic propeller.

Each Horölogy is unique. Contributing with passion to your ultimate dream, Le Rhône gives you the possibility to co-create your bespoke piece with our designers and artisans, by choosing prestigious materials, colors and other elements.

# RÖAD RACER

*The Power of Precision*

## Technical Features

Movement: Automatic, Fully Developed & Manufactured in Switzerland - 28'800 Vib/h /4hz) - Power Reserve: approx. 42h. Functions: Hours, Minutes, Small Seconds, Date - Chronograph with 60-Minute Counter, Minute Counter - Tachymeter - Case: Diameter 45mm - Stainless Steel 316L with Black Aged Patina or Black DLC Coating (Depending on the versions), or 18K Pink Gold. Water-Resistance: 10 ATM (100 meters / 330 feet).

# RÖAD RACER

*The Power of Precision*

Röad Racer is the very first collection of Le Rhône. Providing a high precision of time measurement, these chronograph watches have been thought through every detail: the dial refers subtly to the dashboard counters of vintage American cars. The two counters located at 9 and 3 o'clock, respectively displaying seconds and the bicomplex chronograph, capture the sporty character of the watch.

# HIGH JEWELRY

*Infinite Creation*

# HIGH JEWELRY

## *Infinite Creation*

The High Jewelry collection is filled with delicate and dazzling 37 or 41mm timepieces, combining the expertise of Swiss local craftsmen with the highest quality of diamonds.

Showing a great delicacy, the Hedönia line comes in Pink Gold with a fully-paved dial and a snow-flake or baguette-cut diamonds bezel. This three-hands automatic piece is also available in White Gold, set with no less than 888 invisible baguette diamonds, and bearing the magical name Hedönia Destiny.

The Limited Edition Moön Act-One is dressed in sapphires and diamonds, representing an enchanting starry night.
